

2023-2024
FAMILY FINANCIAL WORKSHEET

The Financial Worksheet, setting Tuition

All families are required to submit a confidential Financial Worksheet each year. Families applying for admission will submit this worksheet with their application. There is a limited amount of funds set aside for tuition remission for families, and those most in need, as always, will be given consideration by the Tuition Committee. The Tuition Committee will review the worksheets and determine an appropriate tuition amount for each family. If necessary, families will be placed on a waitlist until all remission requests have been fully considered.

The full tuition per child for 2023-2024 is \$30,000.00 for a full day program for 3 and 4 years old, \$17,500.00 and for a part day program for 3 and 4 year old, \$13,500.00.

Questions concerning your worksheet should be directed to Cheryl Buck at 631-537-7068.

Confidential Worksheet

The information requested by this application is necessary to ensure that all applicants are treated equitably. Applications must be accompanied by photocopies of the last two years' Federal Income Tax Returns (Form 1040), *unless 2021 was previously submitted*. Applications will not be reviewed by the Tuition Committee until they are complete. You should submit a single application for all children you wish to enroll at the Hayground School.

Please fill out the worksheet as completely as possible. Income and expenses for 2022 should be actual annual figures, and for 2023 careful annual estimates. If there are significant differences between the two years for any line item, please make an explanatory note on the bottom of the page where the items appear. All asset and liability figures should be as of date of application.

STUDENT APPLICANT(s) (names and ages): _____

Additional dependent children (names and ages): _____
